Dear Fourth Graders,

The school year is almost over, and summer will be here. I am very excited to have you in the 4th grade. I am looking forward to all upcoming fun fourth grade activities.

I know that you have been well prepared for fourth grade. To make sure you don't forget too much this summer, I am recommending you do a little work over the summer. Please complete the Grade 3 Spectrum Math Book. Feel free to complete this book or any other summer workbook that is comparable. Many summer workbooks are available at Lakeshore and Barnes and Noble. Have your parents check your work as you go. Continue working until you have finished the entire book. After you have completed the book, have your parents sign your book and return it to me on the first day of class. There will be a reward for a completed workbook.

In addition to the workbook, please continue to read literature books. I always enjoy hearing about the books you have read over the summer.

There are several big field trips during 4th grade. The approximate cost of these field trips is \$300. Please encourage your parents to buy scrip this summer to help pay for these field trips. Scrip is available in the business office.

Have a great summer! I look forward to seeing you on the first day of school.

Sincerely,

Mrs. Heghesan
