

5th Grade Summer Challenge

Summer workbook?

Not if we can help it!

Welcome to **MobyMax.com**.

Math, Science, Social Studies, Reading, & Writing at your digital fingertips.

Student Sign-in: (available the first Wed. of summer break)

1. go to www.mobymax.com/ca12413 and bookmark the page or download the MobyMax app
2. enter user name: **first name initial + full last name** (e.g. *jsmith*)
3. enter password: **raa** (similar to AR user name and password)

FREE!

** Your MobyMax subscription has already been prepaid by RAA. Go log-in for free with your mobile device.*

CHALLENGING!

** MobyMax caters material to accelerate or remediate at the learners' level.
Choose your subjects . . .
choose your challenge!*

FUN!

** MobyMax rewards students with motivating badges and game time as learning levels are reached.*

5TH GRADE SUPPLY LIST 2018-19

- ✓ 3 mechanical pencils w/lead refills
- ✓ 1 box of 12 Ticonderoga #2 pencils (yes, Ticonderoga ☺)
- ✓ 3 erasers
- ✓ 3 red ballpoint pens
- ✓ 3 Elmer's glue sticks
- ✓ 1 pair of scissors
- ✓ colored pencils & markers
- ✓ 3 different colored highlighters
- ✓ 1-inch thick binder with plastic viewfinder cover
- ✓ 1 plain, white cotton t-shirt (for tie-dye field trip shirt)
- ✓ 1 box of tissue
- ✓ **mobile device** (e.g. laptop or tablet)○ ○ ○

Students have utilized both laptops & tablets successfully, especially when the device is compatible with Adobe Flash Player for online learning games.

One option might be the *Acer Chromebook R11* that features both laptop and tablet characteristics. Students can download learning apps, use the touchscreen for learning games, and do Typing Club on the keyboard. It has a 10-hour battery life, is small and light, and can bend 360 degrees. It costs between \$199-\$299 thru Amazon or Costco, who includes a 2-year warranty.

Why do RAA 5th graders need to bring a mobile device from home into the classroom?

Students will use devices on a regular basis in the classroom. They need online access for keyboarding, submitting English essays via Google Docs, making slideshows on Google Slides, taking AR reading & vocabulary quizzes, STAR reading comprehension tests, Math Facts in a Flash computation practice, MobyMax acceleration & remediation, BrainPop educational videos/games, Khan Academy tutorials, language learning with Duolingo, U.S. State research reports using World Book Online, Science experiments/virtual dissection, Sheppard Software U.S. states/capitals review, Godtube.com, photo/video editing, and more! Since students will own their own mobile devices, they will take their devices with them to higher grades to utilize them for more learning opportunities in the future. Hopefully, that makes your investment in a new or used device more worthwhile in the long run. At the start of the year, students will be trained on specific guidelines for using their devices safely and appropriately. It is a good opportunity for them to learn to make wise choices with proper supervision.
